

# MD. HOSSAIN ABIE

## 3D Modeler, UI/UX Designer, Web & App Developer

I'm a multidisciplinary digital creator with a passion for blending immersive 3D visuals with intuitive user experiences and powerful code. With a background in 3D modeling, I specialize in crafting detailed, optimized assets for games, AR/VR, and interactive environments. As a UI/UX designer, I focus on building user-centered designs that not only look great but also function seamlessly across devices. I bridge the gap between design and development—bringing digital products to life through responsive web and mobile applications.
